

BUPA GLOBAL HEALTH PLANS

Why choose Bupa Global?

At Bupa Global, our plans have been designed for people who want the highest level of private health cover available from Bupa and need access to healthcare facilities around the world.

We've been taking good care of individuals and families for over 40 years. Our global health plans support globally minded individuals and their families who demand the highest quality healthcare available. We give our customers the freedom to access world-leading specialists and hospitals, when it matters most, whether at home or when living, travelling or working abroad.

Our global health plans help to offer peace of mind and reassurance for you and your family

- Coverage all over the world with access to 1.2 million medical providers in our network – whether you want to see a preferred doctor close to home or a specialist in another country, we give you the flexibility to choose where and how you receive your treatment. Your geographical area of coverage is dependent on the plan chosen.
- No specialist's referrals necessary - no need for you to get GP referral or having to see your family doctor first.
- Cover for pre-existing conditions considered (subject to underwriting).
- A simple, quick and straightforward claims process - we can either handle the payment of claims directly within our network of medical providers or you can pay for the cost of treatment yourself and claim back the cost from us.

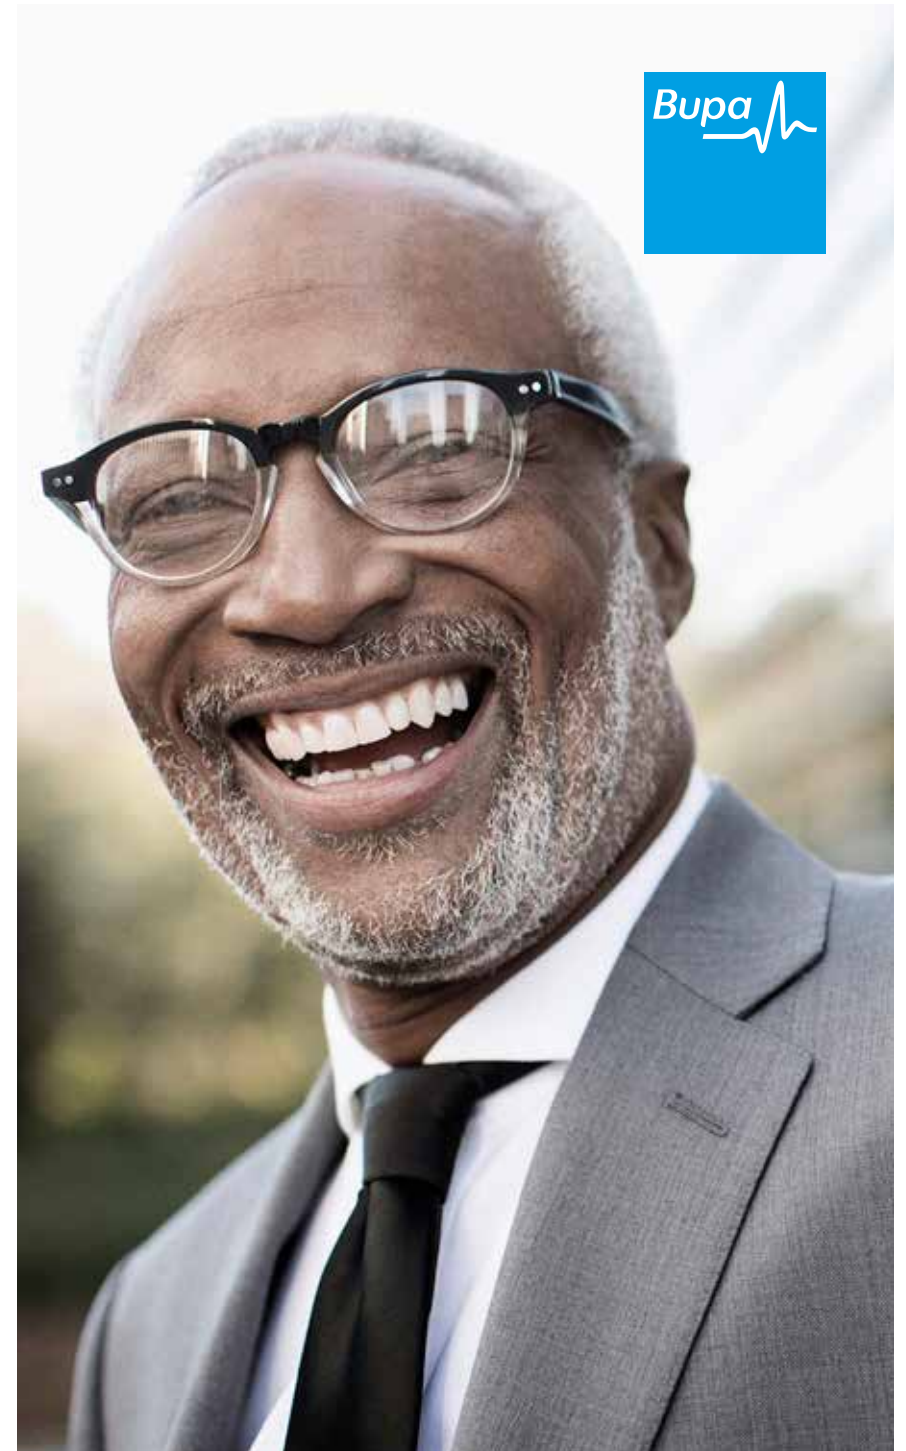

Global health plan range

Our global health plans are tiered (Select, Premier, Elite and Ultimate) with clearly segmented benefits, so you can choose the cover that suits you. Depending on the plan chosen, you will gain access to a range of healthcare benefits, support and services.

We're fully committed to your all-round health and care, so offer an exceptional range of healthcare benefits

- A choice of preventative benefits – including mental health, physiotherapy, acupuncture and chiropractic cover. Our range of health plans can also include dental and optical cover, dependent on the plan chosen.
- Health screening - to help you keep an eye on your wellbeing you can enjoy annual health check-ups and screenings.¹
- Cancer care promise – if you are diagnosed with cancer, you will be in expert hands for as long as you need our care. With a dedicated case manager we'll provide expert treatment as well as ongoing care and support.
- Maternity cover (depending on the plan chosen) – after you have been a customer for 10 months, we'll give you access to a maternity package to help keep you and your baby healthy.

¹ A waiting period applies to this benefit.

Our plans offer you access to a range of support and services

- **Multilingual in-house medical experts** – telephone support available 24/7, so you can get help, support and advice whenever you need it.
- **Healthline support service** – comprehensive support with travel assistance, inoculation and visa information as well as legal and interpreter assistance.
- **Global assistance** – evacuation and repatriation (available on certain plans) giving you access to treatment that is not available locally, helping to ensure your healthcare needs are met.
- **Expert second medical opinion service** – access to a second medical opinion if you are ever unsure about a diagnosis.
- **Consultant and facilities finder** – if you need help finding one of our network providers you'll have access to search our online directory for the nearest consultant, hospital or healthcare services.
- **Secure online member account** – you'll have access to an exclusive customer website MembersWorld, here you can manage your cover, pre-authorise in-patient and day case treatment and submit and track claims.
