

International Health and Hospital Plan

The premium is age-related and will, therefore, be adjusted with respect to age on the first renewal date of the insurance after the insured's birthday. This means that regardless of your payment terms (quarterly, semiannual or annual) the adjustment of premium due to the change of one age bracket to another will take place at the annual renewal of your insurance. If you have reached the age of 60 at the time of application, the premium will be increased. The insurance plan must be taken out before you reach the age of 80. A previous medical history may cause an increased premium, exclusion of cover or, in a few particular cases, a rejection of the insurance.

Your policy premium may be subject to Insurance Premium Tax based on your country of residence. If this is the case, the amount of any taxes, levies or charges will be shown on your premium notice. For more detailed information on any taxes in your country of residence, please refer to Bupa Global or your local representative.
