Product overview

Bupa Worldwide Health Options is our menu-based plan for individuals and families. Whether you're living at home, working abroad or constantly on your travels, it allows you to match your health insurance to your location and lifestyle needs.

Starting with our core in-patient cover, you simply build a plan by selecting the healthcare modules that are right for you. This could be additional out-patient benefits and health assessments, or cover for worldwide medicines and evacuation.

Each module has its own specific healthcare focus. But they all come with 24/7 support on the phone, a relationship manager to help you with anything you need and access to some of the best healthcare facilities in the world.

The flexibility isn't restricted to features and benefits. If you want to keep costs to a minimum, you can choose from a range of deductible options. By contributing to your treatment, you can reduce your premiums without having to compromise on your cover.

So regardless of what you choose, you can relax knowing that you'll be in safe hands.

Why us?

The Bupa Global difference

Over 40 years of medical expertise and dedication to health. A global team of advisers and health experts who, between them, speak multiple languages – and a service that exceeds expectations. These are just a few of the things that make us different.

Global network

Allowing access to a network of over 1.5 million medical providers (inc. U.S.), we give customers the flexibility to choose where and how they receive treatment. We settle directly with our network of providers, so you don't have to pay upfront for your treatment.

Confidence in your diagnosis

The solution to health problems isn't always black and white. That's why we offer you the opportunity to get another opinion from a world-class specialist. A second medical opinion service is available to all customers looking for confidence and peace of mind in their medical diagnosis.

Access your account online

You can now access our exclusive and secure website and mobile app **MembersWorld** whenever you need to. With it, you can submit and track progress of claims, submit pre-authorisation requests, get access to your membership card and insurance documents and chat to us anytime with our in-app messaging service.

Family support

Our 'Bupa Family Plus' app offers tips and guidance for you and your family from pregnancy, through the important milestones of your child's development and into teen years.

Multilingual advisers

When it comes to healthcare, we know you want support from people who understand you and your needs. That's why we have a 24/7 multi-lingual team who are able to speak with you on the phone in many languages and can support you, wherever and whenever you need it.

Supporting mental health

At Bupa Global we believe that mental health and wellbeing are just as important as physical health. To support this, we have removed both annual and monetary limits from this plan for in-patient and day-patient mental health treatment (up to the annual maximum limit of your chosen plan), and we also now include cover for ADHD, addiction and self-inflicted injuries.

Global access in your hands

Our 'Global Virtual Care' app provides you with access to a global network of doctors, offering medical guidance and consultations, plus same day virtual appointments – available 24/7.
