Product overview

Bupa Worldwide Health Options is our menu-based plan for individuals and families. Whether you're living at home, working abroad or constantly on your travels, it allows you to match your health insurance to your location and lifestyle needs.

Starting with our core in-patient cover, you simply build a plan by selecting the healthcare modules that are right for you. This could be additional out-patient benefits and health assessments, or cover for worldwide medicines and evacuation.

Each module has its own specific healthcare focus. But they all come with 24/7 support on the phone, a relationship manager to help you with anything you need and access to some of the best healthcare facilities in the world.

The flexibility isn't restricted to features and benefits. If you want to keep costs to a minimum, you can choose from a range of deductible options. By contributing to your treatment, you can reduce your premiums without having to compromise on your cover.

So regardless of what you choose, you can relax knowing that you'll be in safe hands.

Why us?

The Bupa Global difference

Over 50 years of medical expertise and dedication to health. A global team of advisers and health experts who, between them, speak multiple languages – and a service that exceeds expectations. These are just a few of the things that make us different.

Global network

Allowing access to a network of over 1.7 million medical providers (inc. U.S.), we give customers the flexibility to choose where and how they receive treatment. We settle directly with our network of providers, so you don't have to pay upfront for your treatment.

Confidence in your diagnosis

The solution to health problems isn't always black and white. That's why we offer you the opportunity to get another opinion from an alternative leading medical expert. The Second Medical Opinion service is available to all customers looking for confidence and peace of mind in their medical diagnosis.

Access your account online

You can now access our exclusive and secure website and mobile app MembersWorld whenever you need to. With it, you can submit and track progress of claims, submit pre-authorisation requests and get access to your membership card and insurance documents.

Pre-existing conditions

We don't believe past health issues should stop you enjoying your future. That's why many pre-existing conditions could be covered under our global health plans, subject to our General Exclusions and medical underwriting. An additional premium may apply.

Multilingual advisers

When it comes to healthcare, we know you want support from people who understand you and your needs. That's why we have a 24/7 multi-lingual team who are able to speak with you on the phone in many languages and can support you, wherever and whenever you need it.

Supporting mental health

At Bupa Global we believe that mental health and wellbeing are just as important as physical health. To support, this in-patient and day-patient mental health treatment is covered up to the annual maximum limit of your chosen plan, and we also include cover for ADHD, addiction and self-inflicted injuries.

Global access in your hands

The Global Virtual Care service (available via our MembersWorld app) provides you with access to a global network of doctors, offering medical guidance and consultations, plus same day virtual appointments – available 24/7.
