# Product overview

Whether at home or away, a global health insurance plan can give you and your family access to the right support, from the right people at the right time.

Bupa Global Lifeline puts you in control of your health. Rather than restricting your cover to just one country, it allows you to use healthcare facilities around the world and speak to medical experts any time of the day or night.

Best of all, with three levels of cover to choose from, it's easy to understand, simple to set up and flexible enough to suit most circumstances and budgets.

## **Essential**

This level concentrates on covering you for in-patient hospital stays. You have the security that you'll be covered for treatment you may receive as an in-patient or as a day-case patient.

## **Classic**

A more comprehensive level of cover that pays for routine hospital bills, out-patient consultations, diagnostic tests and treatments such as physiotherapy, accident-related dental and a range of preventive health checks.

## **Gold**

Our highest level of cover that takes care of most in-patient and out-patient costs, including family doctor treatments, prescription medications, physiotherapy and accident-related dental treatment – plus a range of four preventive health checks.

# Why us?

## The Bupa Global difference

Over 50 years of medical expertise and dedication to health. A global team of advisers and health experts who, between them, speak multiple languages – and a service that exceeds expectations. These are just a few of the things that make us different.

## Global network

Allowing access to a network of over 1.6 million medical providers (inc. U.S.), we give customers the flexibility to choose where and how they receive treatment. We settle directly with our network of providers, so you don't have to pay upfront for your treatment.

## Confidence in your diagnosis

The solution to health problems isn't always black and white. That's why we offer you the opportunity to get another opinion from a leading medical expert. Second Medical Opinion is available to all customers looking for confidence and peace of mind in their medical diagnosis.

## Access your account online

You can now access our exclusive and secure website and mobile app **MembersWorld** whenever you need to. With it, you can submit and track progress of claims, submit pre-authorisation requests, get access to your membership card and insurance documents and chat to us anytime with our in-app messaging service.

## Pre-existing conditions

We don't believe past health issues should stop you enjoying your future. That's why many pre-existing conditions could be covered under our global health plans, subject to our General Exclusions and medical underwriting. An additional premium may apply.

## Multilingual advisers

When it comes to healthcare, we know you want support from people who understand you and your needs. That's why we have a 24/7 multilingual team who are able to speak with you on the phone in many languages and can support you, wherever and whenever you need it.

## Supporting mental health

We believe that mental health and wellbeing are just as important as physical health. To support this, both annual and monetary limits across our plans for in-patient and day-patient mental health treatment are the same as for physical health treatment. We also include cover for ADHD, addiction and self-inflicted injuries.

## Global access in your hands

The Global Virtual Care app provides you with access to a global network of doctors, offering medical guidance and consultations, plus same day virtual appointments – available 24/7.
